Kenneth Balderson Speaks On Trinidad To Rotes

Kenneth Balderson, of Magrath, who has spent the past three years in Trinidad, an island off the coast of South America, was the guest speaker at the Rotary luncheon on Monday last and gave a very interesting talk on the Island, its people, climate, products and importance.

Trinidad is 75 miles long and 25 miles wide, and was at one time a part of the mainland of South America. The water seperating the two is still quite shallow. It is one of the British West Indies and its importance right now lies in the large U. S. naval base which has been built there during the past two years, and the oil that it supplies for aeroplane fuel and for other purposes.

The climate is pleasant, and the tropical heat is tempered by the north east trade winds which blow steadily across the island. The average annual rain fall is 80 inches, and growth of all vegetation is very rapid. Sugar cane, which has replaced cocoanuts as the main crop of the island, had brought a great deal of wealth to the islands, the labor situation making it so that it can be produced with profit to all concerned. Most of the land is now controlled by British companies. The cane is transported from the plantations to the mills on light railways and is there crushed and the juice rolled out, and then refined.

About 450,000 people reside on the island, one-third negroes from Africa one-third East Indians and the other third made up of all other races. The negroes do most of the manual labor, the Indians the office and clerical work, and all are very primitive in most respects.

The refined oil is sent mostly to Britain, and during the war year a great many tankers have been sunk by enemy action.

The talk was greatly enjoyed by the members present and Kenneth was invited to come again.

Phil Baker and Gerald Snow were special guests at the meeting.

WEDDING BELLS

DUNCOMBE — SABEY

Lawrence, son of Mr. and Mrs. L. B. Duncombe, Raymond and Udene, daughter of Mr. and Mrs. A. J. Sabey, Magrath were married in the Alberta Temple Wednesday morning, with President Edw. J. Wood performing the ceremony. Parents and relatives of both young people were present for the wedding and joined in best wishes to the happy couple for their married life.

The groom has just recently returned from a two years mission in Eastern Canada, and they will make their home for the present in Raymond. With their many friends here we join in extending best wishes for a long and happy married life.

NEWS NOTES

Seaman Ellsworth Scoville is home on a 60 day leave, having arrived in Raymond on Monday

Mrs. R. W. Tollestrup of Prince Albert, Sask., is visiting here with relatives and friends.

Earl P. Tanner of Magrath was a Raymond visitor Thursday morning.

T. Geo. Wood of Canadian Sugar Factories Ltd, was a business visitor in Edmonton the first part of the week.

It is officially announced that the Prince of Wales nor any of the Glacier National Park hotels willopen during this coming season.

Nearly 5,600 pounds of milk were received at the Factory on Monday morning this week. The receipts have been increasing steadily for the past two months.

* * * *

J. E. Moordsley and C D. Petersen were at their summer sheep range in Red Coulee on Wednesdy assisting in the docking of the lamb crop. They returned Wednesday night.

Mrs. Rowena McMullin left Thursday for Winnipeg, Man., where she is taking a position. Her mother Mrs. A L.. McMullin went with her as far as Bamwell and remained for a day or two to visit with relatives.

Mrs. John Zobell was honored at a shower Wednesday evening, when she was the recipient of a great many lovely gifts from many friends. She is continuing her nursing at the Mental Hospital.

The Sunday evening meeting in the 2nd Ward was under the direction of the Aaronic Priest hood and the teen age boys furnished all the numbers on the program. A most enjoyable program is reported by everyone.

* * *

Geo. E. Gunning, Welling farmer, passed away in a Lethbridge hospital Wednesday morning. He had been in ill health for some months. A large scale farmer, both here an in the Barons district he will be missed by a large circle of friends. We extend our deepest sympathy to the wife and family in their sorrow.

Percy J. Phillip

A member of CBC's panel of news commentators, heard Sundays at 7:30 p.m. CDT (6:30 p.m. MDT) on the Week-End Review series, is Percy J. Philip, Ottawa correspondent of the New York Times. Mr. Philip was born in Scotland. He was the representative of a number of important British newspapers during the Peace Conference of 1919 and headed the New York Times Paris Bureau from 1920 to 1941. He was one of the assistant compilers of the Oxford Dictionary.

Manning Premier--Low Named Minister Of Education

On Monday the Government of Alberta was dissolved, owing to the passing of Premier Aberhart, and a Social Credit Caucus chose Hon. E. C. Manning to succeed as Premier, and he was sworn in by the Lieutenant-Governor and then proceeded to choose the following Cabinet members to assist him:

Premier and Minister of Trade and Industry —Hon. E. C. Manning.

Provincial Treasurer and Minister of Education—Hon. Solon Low.

Attorney General—Hon. Lucien Maynard.

Minister of Municipal Affairs —Hon. C. E. Gerhart.

Provincial Secretary —Hon A. J. Hooke.

Minister of Health—Hon. Dr. W. W Cross.

Minister of Public Works, Railways and Telephones—Hon W. A. Fallow.

Minister of Lands and Mines —Hon. N. E. Tanner

Minister of Agriculture — Hon. D. Bruce MacMillan.

Important Meeting For Egg Producers

We would like to call the attention of egg producers to the advertisement of the Alberta Poultry Pool in this and last week's issue. We would urge all poultry men to read this ad, keep the date in mind and be sure and attend the meeting and listen to the information the speakers have to give out.

For the past two weeks our Co-op has been buying eggs for the Poultry Pool, having signed an agreement as their agent. This action was taken by the Directors in the belief that it would be of financial benefit to poultry producers, although a casual glance may not make it appear so.

The Poultry Pool was sponsored by the Provincial Government and is now a producer owned and operated ogranization. It is non-profit, and directors are chosen from the delegates who are elected in various divisions of the province. Every producer who sells to the pool becomes a shareholder and has a vote in the election of district delegates.

All profits, after expenses are deducted, are returned to proucers in the form of patronage dividends, and the last two such dividends have been 2½ and 2 cents per dozen,respectively. This amounts to quite an item when multiplied by the number of dozen delivered in six months time. According to present arrangements, the dividends will be paid through the local Co-op each time one is declared

The Pool has shown steady and substantial growth, and operates processing plants at Calgary and Edmonton, and throughout northern and central Alberta, have grading stations or agents in every town of any size. They are just expanding now in this part of the Province and have opened a large warehouse and grading station in Lethbridge. Their policy is to return the largest possible amount to the producer, and because this was in line with the aim of the Co-op, it was felt that all our patrons would be more advantageously served through this producer owned and controlled organization. We invite your study of the set up, and your comments on it. Remember the meeting on June 11th, 8 p.m. at the Town Hall and plan to be there.

NEWS NOTES

A. N. MacDonald, Dairy Inspector of the Province was in Raymond Friday and Saturday.

* * *

A woman in Peterborough cut up a whole sack of potatoes and then called the Wartime Prices and Trade Board to complain that she didn't find a seed in the whole thing.

Born to Mr. and Mrs. Wm. Pipgrass, Thursday morning at the Gait Hospital a baby boy. Mother and son are doing fine. The father is a brother of Pearl Nilsson and Luella Shaw.

* * *

Fred Piepgrass is a hospital patient having been operated on Thursday morning for hernia and is getting on as well as can be expected, and his daughter in law, Mrs. Lyle Piepgrass is staying with him for a few days to care for him. His wife returned from Lethbridge Thursday evening after the operation.

Cpl. Bill Hass is enjoying a leave here with his family and friends.

* * *

Earl K. and J. Randolph Milner and their wives who were here for their mother's funeral services returned to their homes in Livingston, Mont., on Tuesday.

* * *

A cinder walk has been started on the street to the Hospital. This will be a big improvement and the thanks of people living in that corner of the town are certainly due the Town for this move.

* * *

Word has been received of the death in Salt Lake City of Elder Sylvester Q. Cannon of the Council of the Twelve and former presiding bishop of the Church of Jesus Christ of Latter Day Saints. His loss will be keenly felt in the Councils of the Church as he was a man of wide experience in both church and business affairs.

Funeral Services For Mrs. Ella Milner

Funeral services for Mrs. Milner, whose death in Salt Lake City, Utah, was announced in last week's paper were held in the First Ward Chapel Sunday afternoon last with Bishop J. Orvin Hicken in charge. The combined choirs of both wards furnished the singing with Ira McBride conducting and Roi Stohe at the organ. A large crowd of friends were present to pay their respects to this fine lady, who in the early years of Raymond ministered unceasingly amongst the sick and distressed.

The opening hymn was "Tho Deepning Trials" and Elder H. S. Allen offered the opening prayer, followed by "We Lay Thee Softly Down to Sleep.

Pres Heber F. Allen was the opening speaker and gave a biographical sketch of deceased, stating that he was very happy to be asked to speak at the services, as he had known the family very well and the boys had been playmates of his in their boyhood days.

Mrs. Sarah Ella Kinsman Milner was born in Provo, Utah 86 years ago, and lived there until 1903 when with her husband and small family they moved to Raymond and did their share and more in the pioneering days of the Town and district. In the days when doctors were scarce and nurses fewer, deceased spent much of her time ministering to the sick, where she displayed a rare skill and understanding in easing pain and distress. With her husband, who passed away 17 years ago, they carried their full share of responsibilities in church and community affairs and reared a fine family of six boys and one girl, three boys predeceasing their mother in death. It was a grand thing that all four of remaining children were able to be present at the funeral, and that they had been permitted to carry out the request of their mother that she be buried here beside the remains of her husband.

Miss Jeannine Wilde sang "I Shall Not Pass Again This Way' accompanied at the piano by Roi Stone.

Elder J. W. Evans was the second speaker and related some of his early associations with the Milner family in the early years of Raymond. As a member of the Bishopric in those days he visited a great deal amongst the sick in the ward, and deceased was always there to render assistance to those in distress. He also paid tribute to Frank Milner, deceased as an agriculturist, and said that in the early days of beet culture here, Frank had raised beet seed from local beets, from which he produced some of the largest beets grown in the district. He read from the Pearl of Great Price the Bible and the Doctrine & Covenants of the reward awaiting those who live good lives and said that deceased had certainly earned a bright crown in the eternal worlds.

Bishop Hicken added a brief tribute to those of the other speakers and on behalf of the family, thanked all those who had assisted in any way.

The closing hymn was "Nearer My God to Thee" and the benediction was pronounced by Elder O. H. Snow. A large cortege followed the remains to the cemetery and the grave was dedicated by Elder C E. Allred.

Directors Meeting

Directors of the Cheese Factory held their regular monthly meeting on Thursday night. Routine matters occupied most of the time and the meeting was out a little after 10 p.m.

The reports tabled showed steady growth in the business and the gradual increase in deliveries of milk was very satisfying. It was decided to immediately procure the cheese curing equipment and get it installed so that the quality of the cheese could be maintained. This will make a big improvement in the storing of the manufactured cheeses, which are finding a ready market now.

NEWS NOTES

S. B. Williams is improving now after an attack of pneumonia. He has been in the Lethbridge Hospital.

* * *

A new floor was laid last week in Velv's Barber Shop the new one being laid over the old one.

* * *

The Louis Brandley home has been re-shingled and the design of the up stairs windows changed. T. K. Roberts and his crew did the work.

Word has been received by the Garner family of the safe arrival in England of their son Elden. A cablegram was received Thursday.

SILK STOCKINGS FOR THE W. D.'s

Great joy reigned throughout the R.C.A.F. (Women's Division) when orders were received giving the girls permission to wear silk stockings after duty hours.

This, together with the smart new hats and neat blue purses now on hand to be issued will certainly make the W. D. the smartest girl in uniform.

New uniforms of cool khaki worsted are to be issued in the near future, for wear during the hot summer days.

Any girl who is smartly dessed in civilian life need have no hesitation in stepping out in the smart unform of the W. D.

Ann Watt

Ann Watt's lovely voice has been heard on many CBC Vancouver programmes. She is currently scheduled in a Recital series on Mondays at 3:00 p.m. (2.00 p.m. MDT) over station CBK Watrous and other stations of the western network.

FARM FOR VICTORY

ANNUAL PASTURES FOR INCREASED DAIRY AND LIVESTOCK PRODUCTION

Prices for dairy and livestock products are such that there is money to be made from sheep and cattle. A farmer is well advised to increase his production. However one of the limiting factors in livestock production in Southern Alberta is available pasture. We are inclined to think of grazing land as being abundant but when one looks at the pastures they always all show signs of overgrazing. Although this is most noticeable on farm pastures it is still true on much of the range land. Reliable figures show that our grazing land is already stocked to capacity. Therefore, if we are to increase the sheep and cattle population on the farms and ranches we must provide more summer grazing.

Tame pastures offer a solution to the problem. Grass and legume pastures are a long term proposition. They are slow to establish. For the farmer that needs a pasture right this summer annuals are the thing. A mixture of any two or all three of oats, barley, and fall rye will supply a good succulent feed when grass is short and feed is dry in summer and early fall. Usually milk flow slackens at this time of year. Calves on cows, and lambs do not make the gains they should. Green pasture will correct this.

If fall rye is included in the mixture the length of the producing period will be increased and the pasture will yield again the next spring. For a short period pasture or a cover crop oats and barley are better.

For summer pasture about three bushels per acre should be seeded. Two of oats or barley and one of rye makes a satisfactory rate of seeding. A cover crop should be seeded lighter and the rye omitted. Annual pasture may be seeded any time from spring until August. The time to seed will depend upon the time it is to be used.

Annual pastures in this district should carry from 3 to 3 cattle per acre per month, depending upon the location and soil and weather conditions. Many people feel that good farm land cannot be used profitably for pasture. This is apparently not the case. Some of the most successful farmers are using good wheat land for pasturing cattle and sheep. Native range land, broken and seeded to brome was found to carry seven times as many cattle as it did before. High priced land in Idaho brought a higher net return per acre when pastured by sheep and milk cows than under any cultivated crop including sugar beets. In the very dry southeast part of the province, at the Dominion Range Station, ed off by calves in the fall yield ed agross return of $26 per acre. This was in 1932 when beef was 6c. a pound. Another point worth considering is the fact that land taken from wheat production and used for this purpose is eligible for a $2. bonus under the new Wheat Acreage Reduction.

Now is the time to make ready for green pasture for next summer and fall. keep those cows producing and those calves and sheep putting on more pounds right through the season. The country needs the milk and the meat and you need the money. Hogs too make more economical gains when grain-fed on pasture.

Grasshoppers

According to the Dominion Entomological Branch grasshopper infestation will be light or patchy in the Cardston, Raymond and Warner districts. Of course much depends on conditions from now on. However farmers are advised to be on the look-out for hatching grass hoppers. Any heavy infestation should be reported to the Field Crops Branch, Edmonton or to the District Agriculturist at once.

Community Sheep Shearing

In view of the shortage of manpower and equipment the Alberta Department of Agriculture has purchased a number of sheep shearing units. This equipment will be available to groups of flock owners who wish to operate on a community basis. A competent shearer will be in charge of each unit. The flock owners will arrange for a central shearing point and each owner will supply necessary help for handling the flock and the fleeces. Any interested persons should get in touch with the District Agriculturist at once to ensure obtaining use of this equipment.

W. R. Hanson,
District Agriculturist.

NATIONAL SELECTIVE SERVICE

Second Compulsory Employment Transfer Order

Notice to Certain Employers and Employees

that men in specified lines of civilian employment, in classes already designated under National Selective Service Mobilization Regulations, must report for interview not later than June 15th, 1943, at an Employment and Selective Service Office.

A. Objectives: This Second Order makes available for essential employments the services of men in classes already designated under National Selective Service Mobilization Regulations, who are now employed in specified non-essential employments.

B. EMPLOYMENTS COVERED BY THIS ORDER: Men, of the specified categories, are covered if now employed at:

(1) Any occupation in or associated with retail stores; (2) any occupation in or associated with the manufacturing of feathers, plumes and artificial flowers; chewing gum; wine; lace goods; greeting cards; jewelry; (3) any occupation in or associated with distilling alcohol for beverage; (4) any occupation in or associated with the factory production of statuary and art goods; (5) any occupation in the operation of ice cream parlours and soda fountains; (6) any of the following occupations: bus boys; charmen and cleaners; custom furriers; dancing teachers; dish washers; doormen and starters; greens keepers; grounds keepers; porters (other than in railway train service); private chauffeurs.

C. AGE AND MARITAL CLASSES OF MEN COVERED BY THIS ORDER: (a) Every man born in any year from 1917 to 1924 (inclusive) who has reached age 19; (b) every man born from 1902 to 1916 (inclusive), who, at July 15, 1940, was unmarried, or divorced or judicially separated, or a widower without child or children; (c) every man born from 1902 to 1916 (inclusive) who has become a widower since July 15, 1940, and is without child or children now living; (d) every man born from 1902 to 1916 (inclusive) who, since July 15, 1940, has been divorced or judicially separated.

D. Procedure to be Followed: All men as defined above must report to an Employment and Selective Service Office not later than June 15th, 1943. Men resident outside a city or town having an Employment and Selective Service Office, too far removed to call personally, may write to the nearest office, and await further directions.

E. ORLIGATIONS OF EMPLOYEES: When directed to accept employment, men referred to in Paragraphs B and C above are required by the Regulations to follow the direction.

F. OBLIGATIONS OF EMPLOYERS: It will be illegal for an employer to retain in his employ after June 15th, 1943, any men referred to in Paragraphs B and C above, unless a special permit has been obtained from Selective Service.

G. Transportation: Provision will be made for transportation of men moved to a new place of residence.

H. Appeals: If objecting to transfer to other employment when directed, a man may enter appeal with a Court of Referees within 7 days.

I. Penalties: Penalties are provided for either employer or employees failing to comply with this Order.

J. Authority: This Order is issued by the Minister of Labour under National Selective Service Civilian Regulations (P.C. 246 of January 19th, 1943, and amending Orders in Council).

K. This Second Order is Additional to First Order: Employments listed in Paragraph B above, declared non-essential in this Second Order, are additional to the non-essential employments contained in the First Order. The First Order, issued on May 4th, 1943, required compliance by May 19th on the part of employees designated under Mobilization Regulations, and also of their employers, in the following lines of work:— *(1) taverns or liquor, wine and beer stores; (2) retail sale of candy, confectionery, tobacco, books, stationery, news; (3) barber shops and beauty parlours; (4) retail and wholesale florists; (5) service stations (gasoline-filling stations); (6) retail sale of motor vehicles or accessories; (7) retail sale of sporting goods or musical instruments; (8) waiter, taxi driver, elevator operator, hotel bell boy, domestic servant; (9) any occupation in or directly associated with entertainment, including but not restricted to theatres, film agencies, motion picture companies, clubs, bowling alleys, pool rooms; (10) any occupation in or directly associated with dyeing, cleaning, and pressing (not including laundry work); baths; guide service; shoe shining.*

Men referred to above must present documents at the employment office, indicating compliance with Mobilization Regulations

Russian General Praises Canadian Tanks

VALENTINE tanks, produced at the Canadian Pacific Railway's Angus Shops in Montreal, have been called by the Russians the best imported tanks they used in crushing Hitler's armor. Major General I. A. Elyaev, chairman of the Soviet Government Purchasing Commission in the United States, has been quoted by Hon. C. D. Howe, Minister of Munitions and Supply in Ottawa, as saying "the Canadian tanks Valentine VII have shown good results in combat action on our front, and have proved themselves the best of all our imported tanks." The Soviet general's tribute was in response to a request from Mr. Howe for a report on the Valentines' part in the Russian offensive. It preceded a congratulatory message sent by General Elyaev to H. B. Bowen, chief of motive power and rolling stock for the Canadian Pacific Railway, on the completion of the Valentine contract early in May, with the needs of a global war having dictated a switch to other weapons. At this time J. H. Berry, Canadian director general of tank production, also congratulated Mr. Bowen and Canadian Pacific personnel "for having delivered the goods on time."

MEAT RATIONING ON FARMS

Rationing of meat came into effect last Thursday. There is no fixed ration for farm households who obtain meat supplies on their own farm, but they are asked to live within the spirit of the rationing order by voluntarily reducing their consumption of meat to the extent imposed on those who have to buy all their meat by coupon.

Farmers may continue to kill livestock of their own for their own consumption and for disposal to other farmers, but they are required to turn in meat coupons from their books each month to the extent of not more than half the coupons coming due that month.

For their own household consumption of meat and for the collection of coupons from other farmers to whom they supply meat, farmers are permitted to calculate at the rate of one coupon for each 2 lbs. of meat up to half of each month's coupons. The remaining half of the coupons are to be retained each month to make what purchases of meat are necessary at retail stores.

Farmers are permitted to continue to keep meat of their own killing in lockers in town, but must turn in coupons for that meat at the rate of 1 coupon for each 2 lbs. held in their lockers, but only to the extent of one half their coupons.

FIELD INSPECTION OF CROPS FOR REGISTRATION OR CERTIFICATION

Because of wartime restrictions and shortage of trained inspectors it is essential that field inspections of standing crops be made as economically as possible. It will, therefore, be necessray that growers wishing such inspection make their applications in good time. It has been decided that applications for forage crop inspections must be made prior to July 1st and those for cereal inspections before July 10th.

Application forms can be secured from, and must be returned promptly to: Production Service, Plant Products Division, Dom. Dept. of Ariculture, Immigration Building, CALGARY, Alberta.

Growers who neglect making application prior to the specified dates may not receive service this season. It is, therefore, to the growers' interest that his application for this service should be filed promptly.

...AND THE MACHINERY THAT MAKES IT SHOULD BE CARED FOR AND KEPT ON THE JOB

YOU, Mr. Farmer, are a part of the great army that is headed toward Berlin and Victory! Because the food that you produce is every-day "ammunition" our fighting forces must have. Remember, *your* farm machines are *engines of war!* So, *care* for every piece of this farm equipment upon which so much depends. Give it the kind of lubrication that will enable it to give you longer, better service.

There is a McColl-Frontenac lubricant for every piece of farm equipment you own. Call on the McColl-Frontenac Representative in your district and ask him about the following:

TEXACO MARFAK
For Wheel-Bearings and Vital Friction Points.

This famous lubricant lasts longer and lubricates better under the toughest working conditions. It is self-sealing and keeps the working lubricant *in* where it is needed most, prolonging life of bearings and universal joints by keeping *out* rain, mud and dust.

RED INDIAN MOTOR OIL and RED INDIAN AVIATION MOTOR OIL

Here are two great oils that will lengthen the life of any engine. They ensure full power and economy under all operating conditions. These finer oils combat acid corrosion, friction, waste and wear. They stand up under highest engine heat . . . they flow and lubricate the moment the engine starts.

URSA X** (CANADA)
The Perfect Motor Oil for Diesel and Heavy-Duty Gasoline Engines.

Highly resistant to the formation of gum, sludge and carbon, Ursa X** (Canada) keeps rings, ring grooves, valves, screens and filters clean. Provides maximum bearing protection. Ensures full power and lower fuel consumption.

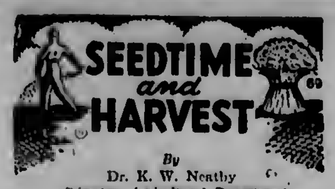
CARD OF THANKS

We desire to express our heartfelt thanks and appreciation to all who assisted in any way in the last rites for our loving mother. For those who brought flowers furnished cars, took part in the service or aided in any way, we are deeply grateful.

The Milner Family



By
Dr. K. W. Neatby
Director, Agricultural Department
North-West Line Elevators Association

Seeds, Weeds and Service

The Line Elevators Association has completed germination tests on 11,060 samples of farmers' seeds, an increase over last year of nearly 2,000. All samples have been tested twice, and many have had three tests. This means a total of nearly 25,000 tests and, if you like big figures, 2,500,000 seeds! Not one complaint has so far reached the office.

Once, again, we take the liberty of reminding farmers that if they cannot identify *all* weeds on their farms, they may be making serious trouble for the future. Small patches of perennial weeds can be destroyed cheaply; but, later on, eradication may cost as much as the land is worth. It is only necessary to collect good specimens, including flowers and roots and take them to the nearest line elevator agent. He will forward them to us, and we will identify the weeds and indicate whether or not they are likely to be serious pests. Or, weeds may be sent to any Dominion Experimental Farm, Provincial Department of Agriculture or University. The importance of this matter cannot be over-stressed.

The Line Elevators' weed bulletin, "An Illustrated Guide to Prairie Weeds," is available through line elevator agents or by writing to the Agricultural Department, The North-West Line Elevators Association, Winnipeg.

It is now nearly four years since the Line Elevator Companies organized this Department to serve prairie farmers. Each succeeding year has brought increased demand for services and publications: this is an ample reward.

Don't forget our columns when you have anything to Buy Sell or Trade. They get results

Gordon Brewerton of Cardston was a Raymond visitor Tuesday this week.

Mr. and Mrs. A. E. Hancock and carload were at the Temple on Wednesday

Dave Richardson had an atland seeded to corn and pasturtack of flu this week and had to lay off work for a few days.

CANADA HAS BECOME THE FOOD BIN OF THE WORLD

There is no question about it, these days the Canadian farmer has a real job on his hands. He not only has to meet the home demand, but the United Nations are looking to him for help, as well. This tremendous task of becoming the food bin for the whole world, is going to take all that he has got to do the job. It means increased effort, more efficient methods. It means, too, that he'll have to keep every bit of farm equipment he has got working. And, to keep it working regularly he'll have to keep it lubricated properly. This question of correct lubricaton is most important. If it is neglected our farm production progamme suffers. To help the farmer, by not only in supplying, but, in suggesting the right type of lubricant for every piece of farm equipment that he operates. McColl-Frontenac Oil Company Limited has a Representative in this district who is prepared to advise farmers on the operation and preservation of farm machinery.
